INTRODUCTION

People in the UK are living longer – and not only are people living longer, they are healthier and more active than any generation before them.
Today's retirees and soon-to-be retired have serious spending power.
This disposable income, along with advances in healthcare and technology, mean that the 60+ population is enjoying long, fulfilling lives – and the numbers are growing – almost as fast as their income.
Today's over 60s are relaxed about spending their money on recreation, culture, food and household goods - and they continue to be the biggest and most enthusiastic consumers of print media.*

*Information collated from a Newsquest readership survey across nine titles in July 2015

OUR READERSHIP

We are taking Prime out to a specifically targeted readership who we know will respond to the content and advertising. Using a carefully devised and well executed distribution strategy, we will ensure this publication has the eye of our target readership.
These readers fall under the following categories:

EMPTY-NEST ADVENTURES

Empty-Nest Adventures are mature, married couples, aged 56 and over, living in very comfortable detached homes. Their children have now left home, giving these parents the opportunity to fully enjoy their empty-nest status.

DIAMOND DAYS

Diamond Days are affluent, older retired couples, no longer financially responsible for their offspring. They have yet to downsize from the substantial family homes they bought many years ago. In addition to owning what are now highly desirable properties in prime locations, successful careers and careful investment in stocks and shares have made them financially secure.

OVERALL, OUR READERSHIP IS:
